TS/SCI Clearance In Processing (DoD) | Army National Guard Officer Candidate | Open to Relocation

Professional Summary

CCNA, CompTIA Security+, and Microsoft Azure Fundamentals certified IT support professional with 2+ years of combined customer service and end-user support experience. Experienced in Tier 1 and Tier 2 technical support, Windows troubleshooting, wireless connectivity diagnostics, incident management, and CRM/ticketing systems aligned with IT Service Management (ITSM) workflows. Maintains a 90% first-contact resolution rate, complemented by hands-on lab experience in Active Directory, Windows Server, DNS, DHCP, and Microsoft Azure.

Technical Skills

IT Support & Ticketing: Tier 1/Tier 2 Technical Support, End-User Support, Incident Management, CRM/Ticketing Systems, Troubleshooting Documentation, Escalation Workflows

Windows & Applications: Windows 11, Microsoft 365, Hardware/Software Troubleshooting, Patch Management, GSS ERP, Citrix Receiver (Application Access)

Networking & Wireless: TCP/IP, DNS, DHCP, Wi-Fi, APN Configuration, SIM/eSIM Provisioning, AT&T Service X, Connectivity Troubleshooting

Systems, Scripting & Monitoring: Active Directory, Windows Server 2022, Hyper-V, PowerShell, Microsoft Azure, Linux (Ubuntu), Zabbix

Professional Experience

Help Desk Analyst October 2026 – Present

Telrite Holdings Atlanta, GA

- Provide **customer-facing Tier 1 and Tier 2 technical support** in the **NOC support organization**, resolving iOS/Android, SIM/eSIM activation, and wireless voice, SMS/MMS, and data issues with a **90% first-contact resolution (FCR) rate**.
- Investigate wireless service disruptions using **AT&T ServiceX**, checking cell tower outages, maintenance events, restoration estimates, and service order codes (SOCs) and sending over-the-air (OTA) updates to support issue diagnosis and recovery.
- Diagnose **wireless connectivity issues** involving APN settings, Wi-Fi calling, hotspots, device configuration, and service provisioning to restore customer connectivity while maintaining an **A+ customer satisfaction (CSAT) rating**.
- Document incidents, resolutions, and escalations in **CRM/ticketing systems** to support NOC workflows, accurate records, and service quality while maintaining an **average quality audit score of 95**.
- Perform account verification, SIM swaps, device compatibility checks, and payment processing while following **CPNI privacy requirements and PCI DSS procedures** to protect sensitive customer information.

Manufacturing Staff Accountant July 2025 – February 2026

Piana Technologies Atlanta, GA

- Administered **Global Shop Solutions (GSS) ERP**, configuring production workflows and managing integrations with Excel and external platforms to maintain reliable cross-system operations.
- Automated reporting and variance detection using **Power Query, Power Pivot, XLOOKUP, and Excel**, reducing month-end close from **20 days to 10 days** while improving reporting efficiency.
- Managed **IT asset lifecycle and inventory** for computers, scanners, and printers as sole asset administrator, tracking acquisition, depreciation, and retirement to maintain asset accountability.
- Delivered **end-user training and application support** for GSS ERP, troubleshooting workflow issues across departments to improve adoption and business processes.

IT Support Specialist & Tax System Administrator August 2024 – January 2025

The Tax Corner Acworth, GA

- Supported office network infrastructure and **five Windows workstations** running Drake tax software, troubleshooting connectivity, application access, and performance to maintain peak-season operations.
- Resolved **Tier 1 technical support** requests involving Windows, authentication, software, and network connectivity, typically restoring end-user functionality within **30 minutes**.
- Administered **Drake tax software and electronic filing workflows**, resolving access and processing issues involving sensitive client forms (1099, W-4, and W-9) to support secure tax operations.
- Implemented **patch management** for Windows workstations and business applications, maintaining updates to strengthen endpoint security and application stability.
- Developed **automated encrypted daily backups** with integrity validation for **400+ client records**, protecting sensitive financial data and supporting secure recovery.

Certifications

CompTIA Security+ (SY0-701) | **Cisco Certified Network Associate (CCNA)** | **Microsoft Certified: Azure Fundamentals (AZ-900)**

Technical Projects

Active Directory Home Lab | *Hyper-V, Windows Server 2022, AD DS* | dallasdeas.github.io Present

- Deployed a virtualized **Windows Server 2022 Active Directory** environment with DNS and a domain-joined Windows 11 endpoint; managed users, security groups, and OUs and troubleshot DNS and VM configuration issues.

Network Infrastructure Lab | *Cisco Packet Tracer* | dallasdeas.github.io Present

- Configured a **four-VLAN Cisco LAN** using inter-VLAN routing, OSPF, 802.1Q, EtherChannel (LACP), DHCP relay, NAT/PAT, ACLs, and SSHv2 to support segmented and secure connectivity.

Microsoft Azure Cloud Lab | *Microsoft Azure, IAM, Entra ID, RBAC* | dallasdeas.github.io Present

- Applied **least-privilege access** through Entra ID, security groups, and Azure RBAC; configured budgets and alerts to support access governance and cost control.

Military Service

Army National Guard – Officer Candidate February 2026 – Present

- Selected for **Officer Candidate School** pursuing the **Signal Corps (25A)** branch, emphasizing leadership development and a future network/communications infrastructure career.

Education

Young Harris College Young Harris, GA

Bachelor of Science in Finance and Accounting (Business Analytics), Minor in Management August 2021 – May 2025

Zell Miller Scholarship | *Athletic Scholarship* | *Dean's List: Fall 2024, Spring 2025*
